

The roof may be gone but there is still hope for this building. We are pleased to support Balmacara Hall Community Committee in exploring a new lease of life for the hall. Grant of £9,960 will pay for a survey along with preparation of outline plans and costs. It will be important to understand how the local community wishes to use the building, as well as the potential to provide services to visitors, thereby generating an income stream for future maintenance. The grant is provided with thanks to the William Grant Foundation and is wholly administered by the Architectural Heritage Fund.
